EDUCATION

- **Prince Shri Venkateshwara Padmavathy Engineering College** Chennai, Tamilnadu
Bachelor of Technology - Information Technology; CGPA: 8.0
Courses: Data Structures, Software Engineering Design, Object-Oriented Programming, Database Management
2023 - 2027

SKILLS SUMMARY

- **Languages:** Python, Java, HTML,CSS, JavaScript
- **Frameworks:** Numpy, Pandas, Matplotlib, Seaborn
- **Tools:** Hadoop,Hive, Docker, GITHUB, MySQL, Figma
- **Platforms:** Linux, Windows, Arduino
- **Soft Skills:** Leadership, Collaboration, Self-Learning, Time Management

EXPERIENCE

- **Chargebee** Hybrid
Artificial Intelligence Trainee Ongoing
 - **Prompt Engineering & Generative A:** Designing and optimizing effective prompts to enhance AI model responses, while exploring Generative AI tools for content creation, automation, and real-world applications.
 - **Machine Learning Concepts:** Applying core ML techniques including data preprocessing, feature selection, model training, and performance evaluation using practical datasets.
 - **Hands-on Development:** Building and implementing AI-driven solutions through projects, gaining real-world experience in developing intelligent systems and improving model efficiency..
- **VCodez Innovate Ideas Pvt. Ltd.** Onsite
Machine Learning Intern Apr 2025 – Jul 2025
 - **Data Preprocessing & Visualization:** Performed data cleaning, preprocessing, and exploratory data analysis using NumPy, Pandas, Matplotlib, and Seaborn to extract meaningful insights.
 - **Machine Learning & NLP:** Implemented ML algorithms and explored basic NLP techniques for problem-solving.
 - **Project Development:** Worked on projects to improve prediction accuracy and understand end-to-end ML workflows.

PROJECTS

- **AI-Powered Smart Hospital Bed Allocation System (AI, Healthcare, LLM):** (Work in progress) Developed a system to optimize ICU and general bed allocation using patient severity and resource data, with real-time backend, simulation, and intelligent decision-making. Tech: Python, FastAPI, OpenEnv, HTML, CSS, JavaScript, REST APIs, LLM
- **Campus Care AI (AI, Chatbot, Web Application):** Developed an AI-powered grievance management system with real-time complaint tracking, chatbot support using Dialogflow, and an admin dashboard with role-based access and automated escalation to improve resolution efficiency. Tech: HTML, CSS, JavaScript, Dialogflow
- **Two-Wheeler Recommendation System using Machine Learning (ML, Recommendation System, Data Analysis):** Developed a personalized vehicle recommendation system using machine learning, incorporating data preprocessing, feature engineering, and an interactive interface to suggest suitable options based on user inputs like budget, mileage, and usage. Tech: Python, Numpy, Pandas, Scikit-learn

PATENT PUBLICATIONS

- **Smart Helmet:** Developed an IoT-based safety system for two-wheeler riders integrating alcohol detection, helmet compliance monitoring, and real-time accident prevention alerts, improving rider safety and ensuring secure vehicle operation; recognized with a patent for innovation in public safety technology.

HONORS AND AWARDS

- Awarded the “I am the Change” Scholarship by Team Everest (30,000/year for 4 years) for academic excellence.
- Secured 3rd Prize in a hackathon conducted by Google Developer Groups (GDG) at college level
- NCC B and C Certificate with Grade ‘A’ – Demonstrates discipline, leadership, and teamwork.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- CS207: Fundamentals of Machine Learning -Saylor Academy
- Machine Learning Using Python - Simplilearn
- Digital Skills: User Experience - Accenture
- Front End Development HTML, CSS - Great Learning
- Design Thinking - Hp Life
